

2,4-D ester plus Garlon

See individual components, 2,4-D ester 800 and Garlon 600, for label information.

Rates quoted in HerbiGuide are for a 2:1 tank mix. A rate of 300 mL/ha is equivalent to 200 mL/ha of 2,4-D ester(800g/L) plus 100 mL/ha of Garlon 600.
