GENERAL INSTRUCTIONS:
4Farmers Oryzalin 500 Herbicide is a pre-emergent surface applied herbicide that will control the specified annual grasses and broadleaf weeds in the crops listed. When using 4Farmers Oryzalin 500 Herbicide the soil must be prepared to be free of established weeds. Remove or thoroughly trash (weed residues, prunings etc) into the soil before applying. Note that moisture in the form of rain or sprinkler irrigation (12.5mm) is required within 21 days of application to a local authority landfill. To do otherwise, efficiency will be reduced. If moisture is not received within the period, incorporate the product into the top 2.5cm of soil.

MIXING:
4Farmers Oryzalin 500 Herbicide mixes readily with water. Before opening, agitate the drum thoroughly. Begin by filling the spray tank with water. When the tank is approximately half full add the required quantity of 4Farmers Oryzalin 500 Herbicide, then top up with water to the required volume. The mixture should be continuously agitated to ensure 4Farmers Oryzalin 500 Herbicide is thoroughly mixed. DO NOT leave spray solutions to stand overnight.

APPLICATION:
Apply 4Farmers Oryzalin 500 Herbicide in 200–450 litres of water per hectare. Apply uniformly, especially within the dripline of trees and shrubs, so that application above label rates does not occur. Use a properly calibrated low-pressure (170-340kPa) herbicide sprayer. Provide good by-pass or other agitation of the spray suspension in the tank before and during application. Soil treated with this product may be shallow cultivated without loss of herbicide activity.

COMPATIBILITIES:
4Farmers Oryzalin 500 Herbicide is compatible with paraquat, glyphosate, oxyfluorfen and simazine.

RESISTANT WEEDS WARNING
4Farmers Oryzalin 500 Herbicide is a member of the dinitroaniline group of herbicides. 4Farmers Oryzalin 500 Herbicide has the inhibition of tubulin formation mode of action. For the listed crops, resistance management, 4Farmers Oryzalin 500 Herbicide is a Group D herbicide. Some naturally-occurring weed biotypes resistant to 4Farmers Oryzalin 500 Herbicide and other Group D herbicides may exist through normal genetic variability in any weed population. The resistant individuals can eventually dominate the weed population if these herbicides are used repeatedly. These resistant weeds will not be controlled by 4Farmers Oryzalin 500 Herbicide or other Group D herbicides. Since the occurrence of resistant weeds is difficult to detect prior to use, 4Farmers Pty Limited accepts no liability for any losses that may result from the failure of 4Farmers Oryzalin 500 Herbicide to control resistant weed. Note: strategies to minimise the risk of herbicide resistance are available. Contact your farm chemical distributor, consultant, local Department of Agriculture, or 4Farmers representative.

PROTECTION OF CROPS, NATIVE AND OTHER NON-TARGET PLANTS
When applying spray, avoid contact with leaves and other parts of trees and vines. DO NOT apply under meteorological conditions or from spraying equipment which could be expected to cause spray to drift onto nearby susceptible plants, adjacent crops, crop lands or pastures.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT
DO NOT contaminate dams, rivers, drains or streams with chemical or used container.

STORAGE AND DISPOSAL:
Keep out of reach of children. Store in the closed, original container in a cool, well-ventilated area. DO NOT store for prolonged periods in direct sunlight. Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. DO NOT DISPOSE of undisolved chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, puncture and bury empty containers immediately. If no landfill is available, bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

SAFETY DIRECTIONS:
Avoid contact with eyes and skin. DO NOT inhale spray mist.

FIRST AID:
If poisoning occurs, contact a doctor or Poisons Information Centre (Telephone 13 11 26).

MATERIAL SAFETY DATA SHEET:
Additional information is listed in the Material Safety Data Sheet.

CONDITIONS OF SALE
The use of 4Farmers Oryzalin 500 Herbicide is being followed by the control of the manufacturer, no warranty expressed or implied is given by 4Farmers Pty. Ltd. regarding its suitability, fitness or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not and 4Farmers Pty. Ltd. accepts no responsibility for any consequences whatsoever resulting from the use of this product.
ORYZALIN 500 Herbicide

ACTIVE CONSTITUENTS: 500g/L ORYZALIN

GROUP D HERBICIDE

For the pre-emergent control of annual grasses and broadleaf weeds as described in the Direction for Use table.

IMPORTANT: READ THE ATTACHED BOOKLET BEFORE USE

Contents: Litres
