TITAN QUIZALOFOP P-ETHYL 99.5 HERBICIDE

1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product Name  Titan Quizalofop P-Ethyl 99.5 Herbicide
Product Code  -
Other Names  -
Product Use  Agricultural Herbicide
Company Name  Titan Ag Pty Ltd
Address  3/14 Narabang Way
          Belrose NSW 2085
Telephone Number  02 9986 2943
Emergency Telephone  02 9986 2943

2. HAZARDS IDENTIFICATION

HAZARDOUS SUBSTANCE. NON DANGEROUS GOODS.
Classified as hazardous according to the criteria of Safe Work Australia.

Hazards  Xn - Harmful
          N - Dangerous to the Environment

Risk Phrases  R22 - Harmful if swallowed.
              R36/38 - Irritating to eyes and skin.
              R51/53 - Toxic to aquatic organisms. May cause long-term adverse effects to the aquatic environment.
              R65 - Harmful: May cause lung damage if swallowed.

Safety Phrases  S2 - Keep out of reach of children.
                S23 - Do not breathe gas/fumes/vapour/spray (appropriate wording to be specified by the manufacturer).
                S24 - Avoid contact with skin.
                S41 - In case of fire and/or explosion do not breathe fumes.
                S62 - If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label.

3. COMPOSITION / INFORMATION ON INGREDIENTS

4. FIRST AID MEASURES

Inhalation  If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Seek medical
attention if symptoms persist.

Ingestion
If swallowed, do not use vomiting. Wash mouth with water and give some water to drink. Where vomiting occurs naturally have victim place head below hip level in order to reduce risk of aspiration. Never give anything by mouth to an unconscious person. Seek immediate medical attention.

Skin
If skin or hair contact occurs, immediately remove contaminated clothing and wash skin and hair thoroughly with soap and plenty of water. Seek medical attention if symptoms persist.

Eyes
If in eyes, hold eyelids apart and flush the eye continuously with large amounts of water for at least 15 minutes. Seek medical attention if symptoms persist.

Note to Doctor
This product contains a hydrocarbon solvent. Care should be taken to prevent pulmonary aspiration. Small amounts of liquid aspirated into the respiratory system during ingestion or from vomiting may cause bronchopneumonia or pulmonary oedema.

5. FIRE FIGHTING MEASURES

For major fires call the Fire Brigade. Ensure that an escape path is available from any fire.

Suitable Extinguishing Media
Water spray, foam, carbon dioxide and dry agent.

Hazardous Combustion Products
Fire decomposition products from this product may be toxic if inhaled.

Firefighting Equipment
Wear Safe Work Australia approved self-contained breathing apparatus and full protective clothing.

Unusual Fire or Explosion Hazards
This product is classified as a C1 combustible product. There is little risk of an explosion from this product if commercial quantities are involved in a fire. Violent steam generation or eruption may occur upon application of direct water stream on hot liquids. Vapours from this product are heavier than air and may accumulate in sumps, pits and other low-lying spaces, forming potentially explosive mixtures. They may also flash back considerable distances. If possible and without risk, remove intact containers from exposure to fire. Otherwise, spray unopened containers with water to keep cool.

Hazchem Code
Not applicable.

6. ACCIDENTAL RELEASE MEASURES

Spills
In the event of a major spill, prevent spillage from entering drains or water courses. Extinguish or remove possible sources of ignition. Wear full protective clothing including eye/face protection and impervious elbow-length gloves. Stop leak if safe to do so and contain spill. Absorb onto sand, vermiculite or other suitable absorbent material. If spill is too large or if absorbent material is not available, try to create a dike to stop material spreading or going into drains or waterways. Collect into labelled containers for recycling or salvage and dispose of promptly.
After spills wash area preventing runoff from entering drains.

### 7. HANDLING AND STORAGE

**Handling**
Use of safe work practices are recommended to avoid eye or skin contact and inhalation. Observe good personal hygiene, including washing hands before eating. Provide adequate ventilation.

**Storage**
Store in the closed, original container in a dry, well ventilated area, as cool as possible. Do not store for prolonged periods in direct sunlight. Keep container tightly sealed and do not store with seed, animal food or foodstuffs. Keep away from all ignition sources.

### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

**Exposure Standards**
*N*-methyl-2-pyrrolidone:
- **TWA:** 25 ppm / 103 mg/m³
- **STEL:** 75 ppm / 309 mg/m³

**Engineering Controls**
This product should only be used in a well ventilated area. If natural ventilation is inadequate, use of a fan is suggested.

**Respiratory Protection**
Respiratory protection not necessary. Avoid working in and breathing spray mist. If in doubt use a Safe Work Australia approved full face supplied air respirator if high airborne concentrations of the material are present. See Australian Standards AS/NZS 1715 and 1716 for more information.

**Eye Protection**
Protective glasses or goggles and face shield. See Australian Standards AS 1336 and AS/NZS 1337 for more information.

**Skin Protection**
Impervious elbow-length gloves, cotton overalls and washable hat. See Australian Standards AS 2161 and 2919 and AS/NZS 2210 for more information.

**Hygienic Practices**
Food, beverages and tobacco products should not be stored or consumed where this material is in use. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storage or re-use. Provide eyewash fountains and safety showers in close proximity to points of potential exposure.

### 9. PHYSICAL AND CHEMICAL PROPERTIES

**Appearance**
Dark amber liquid

**Odour**
Hydrocarbon odour

**Solubility in Water**
No information available.

**Boiling Point**
No information available.

**Freezing Point**
No information available.

**Vapour Pressure**
No information available.

**Vapour Density (Air = 1)**
1.02 g/c m³

**Specific Gravity (H₂O=1)**
No information available.

**Flash Point (closed cup)**
98.9°C
10. STABILITY AND REACTIVITY

</tbody>
</table>

11. TOXICOLOGICAL INFORMATION

**Toxicity**

**Quizalofop p-ethyl:**
- Oral LD$_{50}$ (rat) = 1210-1670 mg/kg
- Oral LD$_{50}$ (mouse) = 1753-2350 mg/kg
- Dermal LD$_{50}$ (rat) > 2000 mg/kg
- Dermal LD$_{50}$ (rabbit) > 2000 mg/kg

**Reproductive Effects:** No evidence of reproductive effects.

**Teratogenic Effects:** No evidence of teratogenic effects.

**Mutagenic Effects:** No evidence of mutagenic effects.

**Carcinogenic Effects:** No evidence of carcinogenic effects.

**N-methyl-2-pyrrolidone:**
- Oral LD$_{50}$ (rat) = 3914 mg/kg
- Oral LD$_{50}$ (mouse) = 7725 mg/kg
- Dermal LD$_{50}$ (rabbit) = 8000 mg/kg
- Intraperitoneal LD$_{50}$ (rat) = 2472 mg/kg

Skin, eye and respiratory irritant. May cause harm to the unborn child.

**Routes of Exposure**

Inhalation, ingestion, eye and skin

**Acute Health Effects**

**Inhalation:** Harmful by inhalation. In addition may irritate mucous membranes of nose and mouth.

**Ingestion:** Harmful if swallowed. This product contains a hydrocarbon solvent. Care should be taken to prevent pulmonary aspiration. Small amounts of liquid aspirated into the respiratory system during ingestion or from vomiting may cause bronchopneumonia or pulmonary oedema. This product is an oral irritant. Symptoms may include burning sensation and reddening of skin in mouth and throat.

**Eye:** This product is a severe eye irritant. Symptoms may include stinging and reddening of eyes and watering which may become copious. Other symptoms such as swelling of eyelids and blurred vision may also become evident. Lengthy exposure or delayed treatment is
Skin: likely to cause permanent damage. Will irritate the skin. Symptoms may include itchiness and reddening of contacted skin.

Chronic Health Effects: Repeated exposure to the solvent in this product may cause skin dryness or cracking.

Existing Conditions Aggravated by Exposure: No information available.

Carcinogenicity: No (Safe Work Australia, NTP, IARC).

### 12. ECOLOGICAL INFORMATION

**Ecotoxicity**

Quizalofop p-ethyl:

Quizalofop p-ethyl is highly toxic to fish.

Aquatic organisms:

- LC$_{50}$ 96hr (Rainbow trout) = 10.7 mg/L
- LC$_{50}$ 96hr (Bluegill sunfish) = 0.46-2.8 mg/L

Birds:

- Oral LD$_{50}$ (Mallard duck) > 2000 mg/kg

Quizalofop p-ethyl is practically non-toxic to bees.

Mobility

Quizalofop-p-ethyl is moderately persistent in soils, with a reported half-life of 60 days. It may be more rapidly broken down in soil with high microbial activity. It is moderately to strongly adsorbed to soils, and studies indicate very low soil mobility. It should not leach significantly into water.

N-methyl-2-pyrrolidone is readily biodegradable.

### 13. DISPOSAL CONSIDERATIONS

Disposal methods and containers:

Instructions concerning the disposal of this product and its containers are given on the product label. Dispose according to applicable local and state government regulations.

Special precautions for landfill or incineration:

Please consult your state Land Waste Management Authority for more information.

### 14. TRANSPORT INFORMATION

Not classified as a dangerous good according to the Australian Code for the Transport of Dangerous goods by road or rail.

- UN Number: Not applicable
- Proper Shipping Name: Not applicable
- Dangerous Goods Class: Not applicable
- Hazchem Code: Not applicable
- Packing Group: Not applicable
- Special Precautions: Not applicable
Sea Transport:
UN Number 3082
Proper Shipping Name ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (contains quizalofop p-ethyl)
Dangerous Goods Class 9
Hazchem Code 3Z
Packing Group III
Special Precautions Not applicable

15. REGULATORY INFORMATION

Quizalofop p-ethyl, solvent naphta (petroleum) heavy aromatic and N-methyl-2-pyrrolidone are listed in the Australian Inventory of Chemical Substances (AICS).

SUSDP Classification: S6
